

Ark Greenwich Free School Summer Camp Impact Report

Metric	Measure
Number of pupils attending	Attendance at summer camp was between 74-86 scholars per day, an average of 80 scholars.
Number of pupils (as % of all pupils)	72% of year 7 scholars attended summer camp at some point over the course of the week.
% attending who are PP	57%
Number of days of camp provided	5 days
Overall attendance at camp	The sum of the scholars who attended summer camp each day is 404 out of a possible 600. 120 scholars per day would have been full attendance.
Number of staff involved	17
Named camp leads	Hannah Brooks & Jemma Towler

Aims

- To give incoming Y7 scholars the opportunity to socialise in a structured environment to develop positive peer interaction.
- To provide opportunities for catch up in reading, numeracy, and literacy.
- To provide broader enrichment opportunities that scholars may not have access to at home during the summer holiday

Impact

Area	Description
Aut 1 attendance	Scholars who attended summer camp have higher average attendance in Autumn half term 1 than those who did not. The average scholar attendance for those who attended summer camp is 97%, whereas for those who did not attend, the average is 94.6%.
Aut 2 attendance	Scholars who attended summer camp have higher average attendance in Autumn half term 2 than those who did not. The average scholar attendance for those who attended summer camp is 94.7%, whereas for those who did not attend, the average is 90.8%.
Aut 1 positive behaviour points	Scholars who attended summer camp received 17.77 golden tickets on average in the first half term. Scholars who did not attend received an average of 14.46 golden tickets.
Aut 2 positive behaviour points	Scholars who attended summer camp received 16.17 golden tickets on average in the second half term. Scholars who did not attend received an average of 15.79 golden tickets.
Aut 1 negative behaviour points	Scholars who attended summer camp received 6.85 negative behaviour points on average in the first half term. Scholars who did not attend summer camp received an average of 7.57 negative behaviour points.
Aut 2 negative behaviour points	Scholars who attended summer camp received 3.95 negative behaviour points on average in the second half term. Scholars who did not attend summer camp received an average of 3.93 negative behaviour points.

Aut 2 exclusions	In Autumn half term 2, 2 of the scholars who attended summer camp were excluded. Of those who did not attend, none of them were excluded.

WWW (What Went Well)

- **Staff engagement**
- **Scholar engagement and enjoyment**
- **Scholars were well aligned to the school values**
- **Scholars reported feeling confident with transitioning**
- **Scholars were able to engage in a broad range of activities that they were unlikely to have done otherwise**
- **Scholars were able to make friends ahead of starting secondary school, which made them feel more comfortable about transition**
- **Impact on positive behaviour and negative behaviour points**
- **Impact on attendance in the first term of year 7**

EBI (Even Better If)

- **100% attendance**
- **More information around reporting- what is required and when**
- **Visiting feeder primary schools to sell summer camp, however this was not possible due to Covid**
- **Access to responses from the student survey**
